Traide Fair Stands

Each stand is sized 3x1 meters and hosts 2 student companies!

Each team has a stand size of 1 x 1.5 meters coverable walls available, walls are 2.5 meters high. Ground space may be used within this booth + max. 20 cm outward in front of the sidewalls. Each team has a threefold socket-outlet to connect electrical equipment at its disposal.

Stand decoration may not reach out over the side-walls of the booths. No Roll-Ups, Displays, Tables, cables or leaflets may be set up or fixed in front or opposite of the booth outside this area! This is necessary in order to ensure safe passage for travellers and customers of The Mall. JA Staff will regularly review adherence to this rule and ask you to remove any items that are deemed unfair in terms of the competition or violating security regulations of the venue.

Example FOR 2 TEAMS:

ATTENTION: all applications to the stand must be made using tape that CAN BE REMOVED EASILY and WITHOUT RESIDUES from damageable surfaces! Examples: Masking Tape (Tesa Krepp), Scotch Magic Tape, Tesa Stripes / Pattafix, etc. Note: the wall elements and frames are non-magnetic! Strong adhesive tapes (e.g. gaffer), foam, nails or screws must NOT be used to fix things to the trade fair stand. Stands have to be approved by our staff before the end of the fair. Any damaged or messed facilities must be replaced at the cost of the Student Company!

Jackets and bags (neither of team members nor visitors) must not be visibly stored at the trade-fair booths! A storeroom is available for transportation packaging, bags etc. at the Mall and will be locked during the day. There is no security, jackets and valuables should not be left in the storage room, lost items cannot be accounted for.
