

THE ENTREPRENEURIAL SCHOOL AWARDS 2019

A recognition of schools championing entrepreneurship education

Helsinki
16 October 2019

The Entrepreneurial School awards is an initiative of JA Europe and an official event of the 2019 European Vocational Skills Week

WELCOME TO THE ENTREPRENEURIAL SCHOOL AWARDS 2019

The Entrepreneurial School awards are an annual recognition of the **outstanding primary and secondary schools championing entrepreneurship education**.

They aim to encourage **vocational and academic schools** to put more emphasis on teaching entrepreneurial skills as a way to better prepare young people for the jobs of tomorrow.

Created in 2015, The Entrepreneurial School awards first gathered 11 schools from 11 countries at a ceremony in the European Parliament in Brussels. Since then, JA Europe organizes a yearly celebration of the most innovative and entrepreneurial schools throughout Europe.

To be eligible for The Entrepreneurial School awards, schools must:

- Offer entrepreneurship education activities that include most of their teachers and students
- Have a vision and a plan
- Allocate specific resources
- Actively support teachers' continuing professional development and training
- Include the local community and business sector

This year, **34 entrepreneurial schools from across Europe** have been selected to receive The Entrepreneurial School Awards. The award ceremony is taking place during the European Vocational Skills Week.

EVSW 2019 - The Awards for VET Excellence

JA Europe has been invited by the European Commission to put forward **2 nominees of The Entrepreneurial School awards for the 2019 Awards for VET Excellence**. These awards are part of the European Vocational Skills Week celebrations and will recognise the VET school that are most able to demonstrate the impact of entrepreneurship education on its students as well as in an innovative and collaborative way.

We are very proud that vocational schools recognized this year by the JA Europe Entrepreneurial School Awards will receive further praise for their dedication and commitment to VET skills. The award for VET Excellence will be delivered during the European Vocational Skills Week in the presence of **Marianne Thyssen, European Commissioner for Employment, Social Affairs, Skills and Labour Mobility**.

AUSTRIA

BG/BRG Stainach

The BG/BRG Stainach is a grammar school in the rural area of Upper Styria in Austria. The school primarily focuses on the acquisition of general knowledge. It has specifically gained wide recognition in foreign language skills including English, French, Italian, Spanish and Russian; advanced business competences (Junior Company, ESP); art and culture (poetry slam, theatre productions); science and IT (practical work in labs) and participation in competitions (languages, business, science, slam, sports). These results are achieved thanks to motivated teachers who aim to prepare their pupils for their later lives as best as they can.

www.gymnasium-stainach.at

BELGIUM

Immaculata Maria- Instituut Roosdaal

The Immaculata Maria-Instituut is a school that places the students at the centre. It is our mission to help create enthusiastic young adults who have what it takes to succeed in today's society. The school supports the teachers by securing a favourable environment for ongoing training: we see many of our teachers take the initiative to develop themselves and in return help the students. The school is very supportive and provides the necessary facilities and time to enable the roll-out of entrepreneurship education programmes. Even though we are a rather small community, we achieve big things together!

www.imi-secundair.be

AUSTRIA

Handelsakademie Hallein

Students at Handelsakademie Hallein have the possibility to experience practical training through different programmes including young enterprises (national level) and enterprise without borders (international level), language competitions, European Union competitions, participation in innovation camps, European virtual business challenge, traineeships and business talks. The principle of an “entrepreneurial spirit” is a key pedagogical concept in all the subjects taught at our school. This approach develops amongst students their team spirit, conflict solving potential, motivation, sense of responsibility and intercultural and linguistic competences. This way our students are able to create their own future with an entrepreneurial spirit!

BELGIUM

Stedelijk Lyceum Waterbaan

Stedelijk Lyceum Waterbaan in Deurne is part of the School Community Municipal Education Antwerp. We deliver high quality education to pupils of the wider region. We offer first grade education that allows pupils to move onto a wide spectrum of disciplines later on in their education path. The courses prepare pupils for either employment and/or higher education. A strong and motivated team trains our pupils to become critical global citizens who can skilfully navigate an increasingly diverse and complex society. The wide variety of courses is an asset for youngsters from this region, who have very diverse backgrounds: we currently teach pupils from 40 different nationalities.

BULGARIA

Mathematical High School “Baba Tonka”

Mathematical high school “Baba Tonka” is an educational centre that is proud to have a century-long history, being a successor of the Girls’ School in Rousse (1864). Since 1970, the school has the statute of a mathematical high school with specialized classes in mathematics, IT and biology and intensive teaching of English language. Since 2012, one of the priorities of the school is the development of entrepreneurship as a competence. It is directed not only to students, but also to teachers and management. The entrepreneurial approach blends very well with the established traditions of the school and keeps it in the top 10 list of the most preferred high schools in the Republic of Bulgaria.

GREECE

1st Vocational School of Aspropyrgos

We are a vocational school in the greater area of Athens in a small town named Aspropyrgos. 300 students across 4 sectors attend our school: Shipping Professionals, Finance, Informatics and Health Professionals. Some of our students have a low standard of living. Aspropyrgos is an industrial area with a lot of energy industries, shipping companies, shipyards and logistics. Thanks to the activities and the programmes we undertake, we have gained a reputation as a pioneering school and more and more students want to enroll in our sectors.

<http://1epal-asprop.att.sch.gr/>

GREECE

Hellenic American Educational Foundation Psychico College

The Athens College was founded in 1925 by a group of enlightened Greeks with the support of American philhellenes such as Bert Hodge Hill, Director of the American School of Classical Studies. The mission of the Hellenic American Educational Foundation is to contribute to society as beacon for Greek education, developing responsible global citizens and future leaders, inspired by the Hellenic heritage and both American and European liberal values. The Psychico College, its sister school, was founded in 1980 under the same principles, while educational philosophy was developed at Athens College. Both schools belong to the Hellenic-American Educational Foundation, a non-profit organisation with campuses in Psychico (housing the Junior High and High Schools as well as the International Baccalaureate Program) and in Kantza (housing the two Elementary Schools: Bodossakeio and Latseio). Psychico college provides a co-curricular program of clubs and activities for all students to further develop both their hard and soft skills, including leadership and teamwork.

NORWAY

Bleiker Upper Secondary School

Bleiker Upper Secondary School decided three years ago that they were going to actively engage with the JA Company Programme as part of their educational offer to students. Since then, 300 students have had the opportunity to engage with the Company Programme in both vocational studies and as additional option for all other students. The 16-19 years old in Bleiker Upper Secondary School have a team of teachers that set entrepreneurship education high on the agenda from the leadership team to the entrepreneurship coordinator that makes everything happen.

www.bleiker.vgs.no

LUXEMBOURG

Ecole de Commerce et de Gestion

The School in Business and Management offers students course in the administrative and commercial sectors. In 2016, the school signed an official charter with the Luxembourg Ministry of Education and the Luxembourg Ministry of Economy to obtain the official status of an “Entrepreneurial school”. The main goal of the agreement is to foster entrepreneurship skills among all secondary-level pupils (4th-2nd grade levels). The programme officially started in 2017. In 2018, the programme has been extended to more classes with the introduction of “entrepreneurship education” as a new compulsory subject with two weekly lessons. The activities carried out include a broad range of different course ranging from social entrepreneurship and self-development to linguistic and cultural and physical activities.

www.iestetuan.es

SWEDEN

Lillerudsgymnasiet

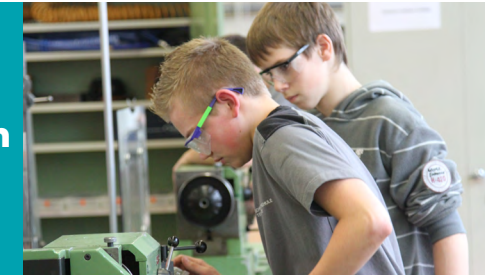

Lillerudsgymnasiet is a vocational school with a focus on agriculture, equine studies, animal care and natural science. The school also offers science studies as an in-depth programme. Beautifully located in the municipality of Karlstad, Lillerudsgymnasiet is a private educational institution founded in 1892. Today there are 220 students attending the school, two thirds of which live on campus. The JA Company Programme is a prioritised activity at the school and school management, principals, teachers and other staff have a great commitment to the JA Company Programme.

<https://www.lillerud.se/>

SWITZERLAND

Berufsbildungszentrum Biel-Bienne

The BBZ Biel-Bienne is one of the largest educational institutions in the Biel-Seeland region. More than 2,000 learners and students are trained here in over 30 occupations. The BBZ is of supra-regional importance as a bridge to the linguistic divide: as a bilingual education centre, a culture of bilingualism is practiced here, in education, and in everyday tasks (whether it be in training workshops or in the teams). The vocational training centre is the driver of basic vocational education in the region, as well as in the Swiss workplace. The advantages of the BBZ Biel-Bienne in terms of location include in particular the added value of innovative training courses, a proximity to the precision cluster and our partnerships with industry. The BBZ Biel-Bienne has a socio-political mission. Its training offer takes different educational backgrounds and training levels into account.

www.bbz-cfp.ch

SWITZERLAND

Wirtschaftsgymnasium and Wirtschaftsmittel- schule

The Wirtschaftsgymnasium Basel leads to the Matura graduation, a nationally recognized diploma of the highest tier in secondary education, making graduates eligible for admission to all Swiss institutions of tertiary education. Students at the Wirtschaftsgymnasium choose between “economics and business law” and “pedagogy/ psychology/ philosophy” as their focal subjects. Approximately 800 students are taught at the Wirtschaftsgymnasium, the Wirtschaftsmittelschule and the Informatikmittelschule, by around 100 teachers. Launching a mini-entreprise within the framework of Young Enterprise Switzerland is an integral part of the students' education.

<https://wg.edubs.ch/>

UNITED KINGDOM

Dunoon Grammar School

Dunoon Grammar School is a co-educational, state run, comprehensive school with a roll of 670 pupils. The school is the only secondary school serving the Cowal peninsula, a region of Argyll and Bute which consists of a predominately rural demographic. Due to the large geographic catchment area of the school, many pupils are bused daily to attend, with approximately 38 pupils staying during the school week in the school hostel. The school has a positive, inclusive, caring ethos. It is designated to make provision for pupils with significant additional support needs arising from a range of factors. Pupils with additional support needs are taught alongside their peers in mainstream classes and, where appropriate, in a specially designed learning centre which is an integral part of the school. The school's active mission is to be ‘...at the heart of our community where we are striving together to achieve excellence’. Entrepreneurship education underpins all activity as the school strives to fulfil this vision.

JA Europe

ABOUT JA EUROPE

JA Europe is Europe's largest provider of education programmes for entrepreneurship, work readiness and financial literacy, reaching 4 million students in 40 countries in 2018. JA works with the education and business communities, as well as governments to provide young people from primary school to university with experiences that build the skills and competences they will need to succeed in a global economy. JA Europe is the European Regional Operating Centre for JA Worldwide.

jaeurope.org

ABOUT JA FINLAND

JA Finland's goal is to advance entrepreneurial attitude and an active lifestyle among Finnish youths by increasing their knowledge of entrepreneurship, providing entrepreneurial experiences, enhancing readiness for working life and financial management skills. JA aims to fulfill its goals by providing programs supporting entrepreneurship and consumer education for 7- to 25-year-olds through schools, universities, and other educational institutions. The programs are carried out as a part of the schools' own curriculum.

ABOUT EUROPEAN VOCATIONAL SKILLS WEEK

European Vocational Skills Week is an initiative from the European Commission to raise awareness about vocational education and training (VET) and increase its attractiveness. The Week aims to make VET more of an appealing proposition, and help young people and adults reach their full potential. Events taking place all over Europe – locally, regionally and nationally – showcase the immense opportunities offered by VET for young people, adults and companies. The motto of the initiative is 'Discover your talent!' It seeks to show that every single person is talented and that VET can provide people with the necessary practical skills, knowledge and competences to succeed in the labour market and in society at large. This year's theme is 'VET for ALL – Skills for Life' and the Week will be focusing on the inclusive and lifelong aspects of VET.
